State of Alabama Licensing Board
2525 Fairlane Drive
Montgomery, AL 36116

To whom it may concern,

May this letter serve as my Letter of Recommendation for D&R Industrial Services , LLC

D&R were responsible for the installation of a Wet Ash Conveyor and a De-aerator Tank at our Medium Density Fiber Board plant located at 579 Willamette Road, Bennettsville, SC.

Scope of work:

De-aerator Tank

- Removal of the roof of De-aerator Tank enclosure
- Disconnect piping and instrumentation from old De-aerator Tank
- Placement of new De-aerator Tank
- Reconnection of piping and instrumentation
- Install new safety relief valves
- Re-install roof of enclosure

Wet Ash Conveyor

- Removal of old Wet Ash Conveyor
- Installation of new Wet Ash Conveyor
- Modify old hoods and covers
- Fabricate & install new hood at discharge of multiclones
- Install new conveyor drive
- Perform final adjustments to chain tension
- Supply all cranes, manlifts & equipment for the job.

The cost of this project was \$50,000.00 US. The work was performed during a July 3rd through 11th Annual Boiler Shutdown. D&R Industrial completed the work on schedule and in a professional manner.

Sincerely,

Andrew Eddy, PEng NB
Eastern Regional Engineering Manager
