To whom it may concern,

This letter is to serve as my letter of recommendation for D & R Industrial Services, LLC.

D & R Industrial Services has performed work for Dieffenbacher at both of our DRAX Biomass projects at Amite, Mississippi and Morehouse, Louisiana. They have proven their ability to quote projects and perform the work in a timely and professional manner that is acceptable to both Dieffenbacher and the customer. They have also worked with us on service and repair work thru our Dieffenbacher Customer Service Division throughout the Southeast for existing Dieffenbacher customers.

I have personally worked with both of the owners of D & R Industrial at previous companies and would not hesitate to recommend these individuals to any company or individual. Their quality and reputation in our industry is outstanding.

If you have any questions feel free to contact me at any time.

Best regards,

Andrew L. Berry
Senior Project Manager
