To-The State of Alabama Licensing Board:

This letter is to serve as my official letter of recommendation for D&R Industrial Services, LLC on behalf of my company, FSE Energy. D&R Industrial Services, along with its superior associates, have demonstrated to our company their upmost ability to execute project work onsite in a number of industries and in a professional manner. On time and on budget is their moto; however, they also have obtained a phenomenal crew of experienced craft who take pride in their workmanship and hold high their representation of D&R Industrial Services. I have personally worked with both of the owners of this newly established company and can indorse their vast abilities to perform within this industry. We have worked with D&R Industrial on large and small capital projects for the Wood Products sectors, Power Generation/Utilities groups, Sugar, and Pulp and Paper mills. In all cases we completed our work scopes on time and on budget with D&R Industrial. I would be happy to work with this company and its individuals on any project in the future, I and would highly recommend them to any other Owner or General Contractor who may be looking to solicit their services.

If there is any doubt or reservation about using D&R, then please do not hesitate to contact me for further validation and recommendation.

Sincerely,

Scott E. Condon
Operations Manager
